Deb--Was the message below for me or Cheryl? Can you please give me the list of the "six-R6ers" who were on the call.

Thanks,
Catherine

Hi Cheryl,

I appreciate your efforts. I regularly disseminate perchlorate-related information to the Region 6 perchlorate working group. The group is now up to 20 individuals. Only six were able to be in attendance today. If it makes it any easier on you, I'd rather you send it to me and I will send it on to them. Chris (RPM for Longhorn) and Chery (our Risk Assessor) are by far the most active in the R6 perchlorate work group.

I also regularly disseminate all the same info to the NM "perchlorate work group" and the TNRCC Perchlorate Work group. So, they will most likely be receiving a double dose of perchlorate material, which I guess is better than none. I usually have to follow up with sending things via fax to NMED as their email system can be very finicky. Thanks again.
